# Amaris (Manru) Xi

3d Artist, Animator, Designer

The protagonist is designed to have a round face, and his big eyes can show that he is not very good at learning and is often bullied.

Big eyes can also express what he thinks in the storyboard, surprise with eyes widening or fear, etc. His character is relatively weak, he doesn't study well, and he is always bullied.

Character Design

Character Model sheet of Trim

Layout

The trees in the park are home to birds, so the bird interfered with the old man.
